Budget Text Analysis

- Datatopian Visionaries

Akash Meghani, Miguel Gaspar Utrera, Naseeb Thapaliya, Sultan Al Bogami, Unnati Khivasara

Mentors: Dr. Soumya Mohanty Jason Jones (Guilford County)

Overview of the Project

- Budget text Analysis for counties and cities:
 - ◆ Guilford County
 - ◆ Wake County
 - ◆ Mecklenburg County
 - ◆ Durham County
 - ◆ City of Charlotte
 - ◆ City of Durham
 - ◆ City of Raleigh

Goals

- Understand the data
- Data Cleaning/Pre-processing
- * Topic Modelling of the textual data
- Emotion and Sentiment Analysis of the budget texts to draw up public's emotional engagement.
- Next work recommender for the texts in budget.

Team Structure

- * All the individuals will work on preparing data i.e. Perform Data cleaning and Data preprocessing.
- * Team will be divided into 2 groups to perform different tasks:
 - Team 1: Topic Modelling Members:
 - 1. Naseeb Thapaliya
 - 2. Miguel Gasper Utrera
 - 3. Sultan Al Bogami
 - Team 2: Emotion and Sentiment Analysis Members:
 - 1. Akash Meghani
 - 2. Unnati Khivasara

Data Overview

- * Primarily, 7 pdf files ranging from 400-500 pages long for each.
- Each pdf is converted to csv files by extracting all the relevant budget texts(words) from the pdf file.
- * So, there are total of 638131 total words extracted from the budget files.

Topic Modelling

Highest word probabilities for each topic

Different words are associated with different topics

• Finding a group of words (i.e topic) from a collection of documents that best represents the information in the collection.

Emotion And Sentiment Analysis

• Sentiment analysis and emotional analysis are two key methods experts use to quantify audiences' emotional engagement.

Next Word Recommender(optional)

• Whenever a user tries to enter a word/s suggest the next word based on combination of words used as input in previous searches.
